

Reply: NRM Bridge → Sugar & Gut Realignment

From: Vanto Zazi Mail (email backend) · To: onlinecourseformlm.com (website) · 2026-04-23

Decision

Yes — rewrite to Sugar & Gut now. All backend assets are already provisioned for this split. Proceed with: headline "Sugar cravings running the show?", lead magnet "5-Day Sugar & Gut Reset", icon Sparkles/Apple, sequence NRM_GUT_BRIDGE, sources nrm_gut_bridge / nrm_gut_bridge_section, Bridge-OFF flag honoured.

Backend status (what we already have live)

Item	Value	Status
NRM Gut Sequence ID	b2f7c4e1-9d3a-4f88-a1c5-7e6b2d9f0a44	LIVE
NRM Gut Sequence	5 emails over 8 days, Day 8 = first soft pitch	LIVE
Whitelisted source A	nrm_gut_bridge	LIVE
Whitelisted source B	nrm_gut_bridge_section	LIVE
NRM tag	NRM_Gut_Bridge	LIVE
NRM segment	"NRM Gut Bridge Leads"	LIVE
Day 8 buy link	onlinecourseformlm.com/shop/nrm?ref={{ref_code}}	LIVE
Lead-magnet PDF expected	/lead-magnets/5-Day-Sugar-and-Gut-Reset-v1.pdf	NEEDS HOST
Bridge-OFF flag	Honoured (no source sent = no enrollment)	LIVE

Confirmation: RLX (Sleep) stays untouched

Item	Value
RLX Sleep Sequence ID	0e1175ee-cc6a-4ab0-a264-e21382f450da
Whitelisted sources	rlx_bridge, rlx_bridge_section
Lead-magnet PDF	/lead-magnets/5-Day-Calm-and-Sleep-Reset-v1.pdf
Day 8 buy link	onlinecourseformlm.com/shop/rlx?ref={{ref_code}}

Action required from website team

1. **Rewrite the NRM section** using Sugar & Gut headline + sub-copy + Sparkles/Apple icon as proposed.
2. **Wire the form** to POST to </functions/v1/save-prospect> with source: "nrm_gut_bridge" (or "nrm_gut_bridge_section" for the in-page widget) and sequence_id: "b2f7c4e1-9d3a-4f88-a1c5-7e6b2d9f0a44".
3. **Host the lead-magnet PDF** at </lead-magnets/5-Day-Sugar-and-Gut-Reset-v1.pdf>. Day 1 email already references this exact path — link will 404 until the file is uploaded. (Tell us if you want us to draft & host this PDF instead.)
4. **Asset cleanup:** the existing RLX Sleep Reset PDF still has an NRM mention + /shop/nrm link on its closing page. That asset needs to be regenerated to point to RLX. Tell us who owns the rewrite — happy to regenerate from our side.

5. **Bridge-OFF flag:** if a campaign should temporarily disable enrollment, simply omit the source field in the POST. Our backend will store the prospect but not enroll them.

Form integration snippet

```
const res = await fetch(
  "https://wwuenmmocxtwwgylnui.supabase.co/functions/v1/save-prospect", { method: "POST",
  headers: { "Content-Type": "application/json" }, body: JSON.stringify({ email, first_name:
  firstName, source: "nrm_gut_bridge", // or "nrm_gut_bridge_section" sequence_id:
  "b2f7c4e1-9d3a-4f88-a1c5-7e6b2d9f0a44", ref_code: refCode || null, }) } );
```

Once items 2 + 3 are done on your side, the Sugar & Gut bridge is fully live end-to-end. RLX sleep bridge is already live.
